

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A system for providing recognition elements to a small group or family, comprising;

a package for delivery to a small or home office in response to a request from a group or family, said package containing a number of prepackaged business forms each with at least one detachable printable identification bands, each of the bands sized and configured to fit around an appendage, said package further including marketing collateral;

readable software to enable the rendering of information to at least one of said bands contained within said package;

a computer means for reading said readable software;

an input means for inputting information into said computer means based on inquiries received from said software;

a connection means for connecting said computer means to a printer; and

said printer for imaging static and distinct indicia on each of said bands and said business forms for each member of a group or family.

2. (Original) A system as recited in claim 1, wherein said connection means includes a global communication network.

3. (Original) A system as recited in claim 1, wherein said computer means and said printer are located at locations remote from one another.

4. (Original) A system as recited in claim 1, wherein said computer means and said printer are located at a single location.

5. (Original) A system as recited in claim 1, wherein said communication means includes a local area network.

6. (Original) A system as recited in claim 1, wherein said software is provided on a compact disc.

7. (Original) A system as recited in claim 1, wherein said input means is a keyboard.

8. (Currently Amended) A personal identification package for a group or family, comprising;

a package for delivery to a home or small office for use in providing personal identification for an outing, said package including;

a group of at least partially blank business forms with each form having a wristband and said business forms contained within a package;

a set of computer readable instructions for producing data on said partially blank business forms and wristbands in advance of the outing;

a set of human readable instructions for using said computer readable instructions and said business forms and wristbands; and

a container for containing said partially blank business forms and wristbands, said computer readable instructions and said human readable instructions.

9. (Previously Presented) A personal identification package as recited in claim 8, wherein said package includes printed marketing materials relating to possible applications for said identification package.

10. (Previously Presented) A personal identification package as recited in claim 8, wherein said package includes printed promotional offers to consumer products or services.

11. (Original) A personal identification package as recited in claim 8, wherein said package further includes a series of removable, decorative labels for use in personalizing at least one of said wristbands.

12. (Original) A personal identification package as recited in claim 8, wherein said computer readable instructions are provided on a compact disc.

13. (Currently Amended) A method of using a personal identification system for a small group or family, comprising the steps of;

providing a package in response to a request from a family or small group for use in an outing, said package including a series of at least partially blank business forms with each business form having at least one wristbands, computer readable software, instructions and marketing collateral;

installing computer readable software containing instructions relating to use of said wristbands and for preparing each of said business forms in advance of the outing;

inputting information into a first data field in response to queries received from said software for each participant in a group or family activity;

determining whether additional participants are available for said group or family activity;

selecting whether to print said first data field onto at least a first business form and wristband or continuing with inputting data relating to additional participants; and

printing said business form and wristband for each member of said group or family with said data set.

14. (Original) A method as recited in claim 13, wherein each of said wristbands created through the method is provided with personalized and fixed information.

15. (Original) A method as recited in claim 14, wherein said fixed information is selected from a group including family information, group data, dates of an activity, name of an activity, place of an activity and combinations thereof.

16. (Original) A method as recited in claim 14, wherein said personalized information is selected from a group including physical descriptions of participants, birth dates, name and addresses, phone numbers, contact information and combinations thereof.

17. (Original) A method as recited in claim 14, including an additional step of positioning at least one wristband in a printer prior to the step of printing said at least one wristband.

18. (Original) A method as recited in claim 14, including an additional step of placing said at least one wristband on a participant for the activity after the step of printing said at least one wristband.

19. (Previously Presented) A method as recited in claim 14, including an additional step of removing said at least one wristband from a participant after the step of placing.

20. (Previously Presented) A method as recited in claim 14, including an additional step of folding over one portion of said wristband on to another to create a laminated wristband after the step of printing said at least one wristband.

21. (Currently Amended) A method of marketing a personal identification package to small groups and families for group activities, comprising the steps of;
producing a package, said package containing a number of imprintable business forms with each business form having an identification band and computer readable software;

creating marketing collateral targeted at small groups or families and delivering said collateral along with said package; and

distributing said package in response to requests from small groups or families.

22. (Previously Presented) A method of marketing as recited in claim 21, including a further step of inserting printed promotional offerings in the package after the step of producing the package.
